other persons not officially concerned with such process until information detailing the Best Evaluated Bidder is communicated to all Bidders.

- 28.2 Any attempt by a Bidder to influence the PDE in the examination, evaluation, comparison, and post-qualification of the bids or contract award decisions may result in the rejection of its bid.
- 28.3 Notwithstanding ITB 28.2, from the time of bid opening to the time of Contract award, if any Bidder wishes to contact the Employer on any matter related to the bidding process, it should do so in writing.

29. Evaluation of Bids

- 29.1 The PDE shall use the criteria and methodologies listed in Section 3, Evaluation Methodology and Criteria. No other evaluation criteria or methodology shall be permitted. By applying the set criteria and methodology, the PDE shall determine the Best Evaluated Bid.
- 29.2 If this bidding document allows bidders to quote separate prices for different lots, the methodology to determine the Best Evaluated Bid for a lot shall be as specified in Section 3, Evaluation Methodology and Criteria.

30. Clarification and changes to Bids

- 30.1 To assist in the examination, evaluation, comparison and post-qualification of the bids, the PDE may, at its discretion, ask any bidder for a clarification of its Bid, including breakdowns of unit rates or prices. Any clarification submitted by a bidder that is not in response to a request by the PDE shall not be considered. The PDE's request for clarification and the Bidder's response shall be in writing and copied to all bidders for information purposes. No change in the prices or substance of the bid shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the PDE in the evaluation of the bids, in accordance with ITB 32.
- 30.2 If a bidder does not provide clarifications of its Bid by the date and time set in the PDE's request for clarification, its Bid may be rejected.

31. Compliance and Responsiveness of Bids

- 31.1 The PDE's determination of a bid's compliance and responsiveness is to be based only on the contents of the bid itself except for findings recorded in the Evaluation Report after a due diligence or post qualification.
- 31.2 A substantially compliant and responsive bid is one that conforms to all the terms, conditions, and specifications of the Bidding Document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:
- (a) Affects in any substantial way the scope, quality, or performance of the Works specified in the Contract; or
 - (b) Limits in any substantial way, inconsistent with the Bidding Document, the Employer's rights or the Bidder's obligations under the Contract; or

 - (iii) Unacceptable counter-proposals concerning key contract terms and conditions, such as payment terms, price adjustment, liquidated damages, subcontracting or warrant

31.3 If a bid is not substantially compliant and responsive to the Bidding Document, it shall be rejected by the PDE and may not subsequently be made compliant and responsive by the Bidder by correction of the material deviation, reservation, or omission.

32. Nonconformities, Errors, and Omissions

32.1 Provided that a bid is substantially compliant and responsive, the PDE may waive any non-conformity or omissions in the bid that does not constitute a material deviation.

32.2 Provided that a bid is substantially compliant and responsive, the PDE may request that the Bidder submit the necessary information or documentation, within a reasonable period, to rectify nonmaterial nonconformities or omissions in the bid related to documentation requirements. Such omission shall not be related to any aspect of the price of the bid. Failure of the Bidder to comply with the request may result in the rejection of its bid.

32.3 Provided that a bid is substantially compliant and responsive, the PDE shall rectify nonmaterial nonconformities or omissions. To this effect, the bid price shall be adjusted, for comparison purposes only, to reflect the price of the missing or non-conforming item or component. The cost of any missing items will be added to the bid price using the highest price from other bids submitted.

32.4 Provided that the bid is substantially compliant and responsive, the Employer shall correct arithmetic errors as follows:

- (a) If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected unless in the opinion of the PDE there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
- (b) If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and

Part 1: Section 1 Instructions to Bidders

(c) If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

32.5 If a bidder does not accept the correction of errors, the bid shall be rejected and the Bid Security may be forfeited.

33. Stages of Evaluation: Using the Technical Compliance Selection Evaluation Method

The evaluation of a bid for the procurement of works using the technical compliance evaluation method shall be conducted under the following stages:

34.2 If after the examination of eligibility, the PDE determines that the bid is not compliant, it shall reject the bid except for rectification of omissions in accordance with ITB 32.2.

34.3 The PDE shall confirm that the following administrative compliance documents and information have been provided in the bid. If any of these documents or information is missing or contrary to the requirements in the bidding document, the bid shall be rejected.

35.2 The determination shall be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB 5, to clarifications

Part 1: Section 1 Instructions to Bidders

in accordance with ITB 30 and the qualification criteria indicated in Section 3, Evaluation Methodology and Criteria.

- 35.3 If, after the examination of the terms, conditions and requirements, the PDE determines that the bid is not substantially responsive in accordance with ITB 31, it shall reject the bid.

36. Currency for Bid Evaluation

36.1 The currency that shall be used for evaluation purposes for all bids shall be Uganda Shillings unless otherwise authorized by a competent authority.

37.5 The PDE reserves the right to accept or reject any variation, deviation, or an alternative offer. Variations, deviations, and alternative offers and other factors which are more than the requirements of the bidding documents or otherwise result in unsolicited benefits for the PDE will not be taken into account in bid evaluation unless otherwise specified in Section 3, Evaluation Methodology and Criteria.

37.6 The estimated effect of any price adjustment conditions under Clause 47 of the GCC,

Part 1: Section 1 Instructions to Bidders

during the period of implementation of the Contract, will not be taken into account in bid evaluation, unless otherwise indicated in Section 3, Evaluation Methodology and Criteria.

38. Margin of Preference

38.1 Unless otherwise specified in the BDS, a margin of preference shall apply. Where a Margin of Preference applies, its application and detail shall be specified in Section 3, Evaluation Methodology and Criteria.

38.2 To grant a margin of domestic preference, bids will be classified in one of three groups, as follows:

39.2 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the bid, in which event the Employer shall proceed to the next best-evaluated bid to make a similar determination of that Bidder's capabilities to perform satisfactorily.

12. Report violations of this Code of Conduct; and

RAISING CONCERNS

If any person observes behaviour that he/she believes may represent a violation of this Code of Conduct, or that otherwise concerns him/her, he/she should raise the issue promptly. This can be done in either of the following ways:

1. Contact [*enter the name of the Contractor's Social Expert with relevant experience in handling gender-based violence, or if such person is not required under the Contract, another individual designated by the Contractor to handle these matters*] in writing at this address [] or by telephone at [.....] or in-person at [.....]; or
2. Call [.....] to reach the Contractor's hotline (*if any*) and leave a message.

The person's identity will be kept confidential unless reporting of allegations is mandated by the law. Anonymous complaints or allegations may also be submitted and will be given all due and appropriate consideration. We take seriously all reports of possible misconduct and will investigate and take appropriate action. We will provide warm referrals to service providers that may help support the person who experienced the alleged incident, as appropriate.

There will be no retaliation against any person who raises a concern in good faith about any behaviour prohibited by this Code of Conduct. Such retaliation would be a violation of this Code of Conduct.

CONSEQUENCES OF VIOLATING THE CODE OF CONDUCT

Any violation of this Code of Conduct by Contractor's Personnel may result in serious consequences, up to and including termination and possible referral to legal authorities.

FOR CONTRACTOR'S PERSONNEL:

I have received a copy of this Code of Conduct written in a language that I comprehend. I understand that if I have any questions about this Code of Conduct, I can contact [*enter the name of the Contractor's contact person with relevant experience in handling gender-based violence*] requesting an explanation.

- 34.3 Any Adjudicator appointed under the contract shall be paid by the hour at the rate specified in the SCC, together with reimbursable expenses of the types specified in the SCC, and the cost shall be divided equally between the PDE and the Contractor, whatever decision is reached by the Adjudicator. Either party may refer a decision of the Adjudicator to an Arbitrator within 28 days of the Adjudicator's written decision. If neither party refers the dispute to arbitration within the above 28 days, the

Part 3: Section 7: General Conditions of Contract

Adjudicator's decision will be final and binding.

- 34.5 Any arbitration shall be conducted in accordance with the Arbitration and Conciliation Act 2000 or such other formal mechanism specified in the SCC, and the place shown in the SCC.

35. Replacement of Adjudicator

Should the Adjudicator resign or die, or should the PDE and the Contractor agree that the Adjudicator is not functioning in accordance with the provisions of the Contract, a new Adjudicator will be jointly appointed by the PDE and the Contractor. B. TIME CONTROL

36. Program

- 36.1 Within the time stated in the SCC, the Contractor shall submit to the Project Manager for approval of a Program showing the general methods, arrangements, order, and timing for all the activities in the Works.

- 36.2 An update of the Program shall be a program showing the actual progress achieved on each activity and the effect of the progress achieved on the timing of the remaining work, including any changes to the sequence of the activities.

- 36.3 The Contractor shall submit to the Project Manager for approval of an updated Program at intervals no longer than the period stated in the SCC. If the Contractor does not submit an updated Program within this period, the Project Manager may withhold the amount stated in the SCC from the next payment certificate and continue to withhold this amount until the next payment after the date on which the overdue Program has been submitted.

- 36.4 The Project Manager's approval of the Program shall not alter the Contractor's obligations. The Contractor may revise the Program and submit it to the Project Manager again at any time. A revised Program shall show the effect of Variations and Compensation Events.

37. Extension of the Intended Completion Date

- 37.1 The Project Manager shall extend the Intended Completion Date if a Compensation Event occurs or a Variation is issued which makes it impossible for Completion to be achieved by the Intended Completion Date without the Contractor taking steps to accelerate the remaining work, which would cause the Contractor to incur an additional cost.

- 37.2 The Project Manager shall decide whether and by how much to extend the Intended Completion Date within 21 days of the Contractor asking the Project Manager for a decision upon the effect of a Compensation Event or Variation and submitting full supporting information. If the Contractor has failed to give early warning of a delay or has failed to cooperate in dealing with a delay, the delay by this failure shall not be considered in assessing the new Intended Completion Date.

38. Acceleration

- 38.1 When the PDE wants the Contractor to finish before the Intended Completion Date, the Project Manager will obtain priced proposals for achieving the necessary acceleration

Part 3: Section 7: General Conditions of Contract

from the Contractor. If the PDE accepts these proposals, the Intended Completion Date will be adjusted accordingly and confirmed by both the PDE and the Contractor.

38.2 If the Contractor's priced proposals for acceleration are accepted by the PDE, they are incorporated in the Contract Price and treated as a Variation.

39. Delays Ordered by the Project Manager

The Project Manager may instruct the Contractor to delay the start or progress of any activity within the Works.

40. Management Meetings

40.1 Either the Project Manager or the Contractor may require the other to attend a management meeting. The business of a management meeting shall be to review the plans for remaining work and to deal with matters raised in accordance with the early warning procedure detailed in GCC 41.

40.2 The Project Manager shall record the business of management meetings and provide copies of the record to those attending the meeting and to the PDE. The responsibility of the parties for actions to be taken shall be decided by the Project Manager either at the management meeting or after the management meeting and stated in writing to all who attended the meeting.

41. Early Warning

41.1 The Contractor shall warn the Project Manager at the earliest opportunity of specific likely future events or circumstances that may adversely affect the quality of the work, increase the Contract Price or delay the execution of the Works. The Project Manager may require the Contractor to provide an estimate of the expected effect of the future event or circumstance on the Contract Price and Completion Date. The estimate shall be provided by the Contractor as soon as reasonably possible.

41.2 The Contractor shall cooperate with the Project Manager in making and considering proposals for how the effect of such an event or circumstance can be avoided or reduced by anyone involved in the work and in carrying out any resulting instruction of the Project Manager.

C. QUALITY CONTROL

42. Identifying Defects

The Project Manager shall check the Contractor's work and notify the Contractor of any defects that are found. Such checking shall not affect the Contractor's responsibilities. The Project Manager may instruct the Contractor to search for a Defect and to uncover and test any work that the Project Manager considers may have a Defect.

43. Tests

If the Project Manager instructs the Contractor to carry out a test not specified in the Specification to check whether any work has a Defect and the test shows that it does, the Contractor shall pay for the test and any samples. If there is no Defect, the test shall be a Compensation Event.

44. Correction of Defects

44.1 The Project Manager shall give notice to the Contractor of any Defects before the end of the Defects Liability Period, specified in the SCC. The Defects Liability Period shall be extended for as long as Defects remain to be corrected.

Part 3: Section 7: General Conditions of Contract

44.2 Every time notice of a Defect is given, the Contractor shall correct the notified Defect within the length of time specified by the Project Manager's notice.

45. Uncorrected Defects

If the Contractor has not corrected a Defect within the time specified in the Project Manager's notice, the Project Manager will assess the cost of having the Defect corrected, and the Contractor will pay this amount.

D. COST CONTROL

46. Bill of Quantities or Activity Schedule

Option 1: Admeasurement Contracts - Bill of Quantities

46.1 The Bill of Quantities shall contain items for the construction, installation, testing, and commissioning work to be done by the Contractor

46.2 The Bill of Quantities is used to calculate the Contract Price. The Contractor is paid for the quantity of the work done at the rate in the Bill of Quantities for each item.

Option 2: Lump Sum Contracts – Activity Schedule

46.3 The Contractor shall provide updated Activity Schedules within 14 days of being instructed by the Project Manager. The activities on the Activity Schedule shall be coordinated with the activities on the Program with due consideration given to ESHS.

46.4 The Contractor shall show delivery of Materials to the Site separately on the Activity Schedule if payment for Materials on Site shall be made separately.

47. Changes in the Bill of Quantities or Activity Schedule

Option 1: Admeasurement Contracts – Changes in the Bill of Quantities

47.1 If the final quantity of the work done differs from the quantity in the Bill of Quantities for the particular item by more than 25 per cent, provided the change exceeds one per cent (1%) of the Initial Contract Price, the Project Manager shall adjust the rate to allow for the change.

47.2 The Project Manager shall not adjust rates from changes in quantities if thereby the Initial Contract Price is exceeded by more than 15 per cent, except with the prior approval of the PDE.

47.3 If requested by the Project Manager, the Contractor shall provide the Project Manager with a detailed cost breakdown of any rate in the Bill of Quantities.

Option 2: Lump Sum Contracts – Changes in the Activity Schedule

47.4 The Activity Schedule shall be amended by the Contractor to accommodate changes of Program or method of working made at the Contractor's discretion. Prices in the Activity Schedule shall not be altered when the Contractor makes such changes to the Activity Schedule.

48. Variations

Option 1: Admeasurement Contracts – Variations

48.1 All Variations shall be included in updated Programs produced by the Contractor.

Option 2: Lump Sum Contracts – Variations

All Variations shall be included in updated Programs and Activity Schedules produced by the Contractor including ESHS issues.

49. Payments for variations

Part 3: Section 7: General Conditions of Contract

Option 1: Admeasurement Contracts – Payment for Variations

- 49.1 The Contractor shall provide the Project Manager with a quotation for carrying out the Variation when requested to do so by the Project Manager. The Project Manager shall assess the quotation, which shall be given within seven days of the request or within any longer period stated by the Project Manager and before the Variation is ordered.
- 49.2 If the work in the Variation corresponds with an item description in the Bill of Quantities and if, in the opinion of the Project Manager, the quantity of work above the limit stated in GCC 46.1 or the timing of its execution do not cause the cost per unit of quantity to change, the rate in the Bill of Quantities shall be used to calculate the value of the Variation. If the cost per unit of quantity changes, or if the nature or timing of the work in the Variation does not correspond with items in the Bill of Quantities, the quotation by the Contractor shall be in the form of new rates for the relevant items of work.
- 49.3 If the Contractor's quotation is unreasonable, the Project Manager may order the Variation and make a change to the Contract Price, which shall be based on the Project Manager's forecast of the effects of the Variation on the Contractor's costs.
- 49.4 If the Project Manager decides that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the Variation shall be treated as a Compensation Event.
- 49.5 The Contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

Option 2: Lump Sum Contracts – Payment for Variations

- 49.6 The Contractor shall provide the Project Manager with a quotation for carrying out the Variation when requested to do so by the Project Manager. The Project Manager shall assess the quotation, which shall be given within seven days of the request or within any longer period stated by the Project Manager and before the Variation is ordered.
- 49.7 If the Contractor's quotation is unreasonable, the Project Manager may order the Variation and make a change to the Contract Price, which shall be based on the Project Manager's forecast of the effects of the Variation on the Contractor's costs.
- 49.8 If the Project Manager decides that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the Variation shall be treated as a Compensation Event.
- 49.9 The Contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

50. Payment Certificates

- 50.1 The Contractor shall submit to the Project Manager statements of the estimated value of the work executed less the cumulative amount certified previously. Unless otherwise specified in the SCC, such statements shall be submitted monthly.
- 50.2 The value of work executed shall be determined by the Project Manager.
- 50.3 The value of work executed shall comprise the value of:
- (a) The quantities of the items in the Bill of Quantities completed for Admeasurement Contracts; or
 - (b) Completed (fully or partially) activities in the Activity Schedule for Lump Sum

contract activities.

50.4 The value of work executed shall include the valuation of Variations and Compensation Events.

50.5 The Project Manager may exclude any item certified in a previous certificate or reduce the proportion of any item previously certified in any certificate in the light of later information.

51. Issue of Interim Payment Certificates

51.1 No amount will be certified or paid until the PDE has received and approved the Performance Security and ES Performance Security. Thereafter, the Project Manager shall, within 28 days after receiving a statement and supporting documents, deliver to the PDE and to the Contractor an Interim Payment Certificate which shall state the amount which the Project Manager fairly determines to be due, with all supporting particulars for any reduction or withholding made by the Project Manager on the Statement if any.

An Interim Payment Certificate shall be withheld for any of the following reasons:

- (a) if anything supplied or work done by the Contractor is not in accordance with the Contract, the cost of rectification or replacement may be withheld until rectification or replacement has been completed;
- (b) if the Contractor was or is failing to perform any work in accordance with the Contract, and had been so notified by the Project Manager, the value of this work may be withheld until it has been performed and/or;
- (c) if the Contractor was, or is, failing to perform any ESHS obligations or work under the Contract, the value of this work or obligation, as determined by the Engineer, may be withheld until the work or obligation has been performed, and/or the cost of rectification or replacement, as determined by the Engineer, may be withheld until rectification or replacement has been completed. Failure to perform includes, but is not limited to the following:
 - (i) Failure to comply with any ESHS obligations or work described in the Statements of Requirements which may include: working outside site boundaries, excessive dust, failure to keep public roads in a safe usable condition, damage to offsite vegetation, pollution of watercourses from oils or sedimentation, contamination of land e.g. from oils, human waste, damage to archaeology or cultural heritage features, air pollution as a result of unauthorized and/or inefficient combustion;
 - (ii) Failure to regularly review the Environmental and Social Management Plan and/or update it promptly to address emerging ESHS issues, or anticipated risks or impacts;
 - (iii) Failure to implement the Environmental and Social Management Plan e.g. failure to provide required training or sensitization;
 - (iv) Failing to have appropriate consents/permits prior to undertaking Works or related activities;
 - (v) Failure to submit the relevant ESHS reports, or failure to submit such reports in a timely manner;
 - (vi) Failure to implement remediation as instructed by the Engineer within the

Part 3: Section 7: General Conditions of Contract

specified timeframe (e.g. remediation addressing non-compliance/s).

51.2 If an amount certified is increased in a later certificate or as a result of an award by the Adjudicator or an Arbitrator, the Contractor shall be paid interest upon the delayed payment as set out in this clause. Interest shall be calculated from the date upon which the increased amount would have been certified in the absence of dispute.

51.3 Unless otherwise stated, all payments and deductions will be paid or charged in the proportions of currencies comprising the Contract Price.

51.4 Items of the Works for which no rate or price has been entered in will not be paid for by the PDE and shall be deemed covered by other rates and prices in the Contract.

52. Payments

Payments shall be adjusted for deductions for advance payments and retention. The Procuring and Disposing Entity shall pay the Contractor the amounts certified by the Project Manager within 30 days of the date of each certificate. If the PDE makes a late payment, the Contractor shall be paid interest on the late payment in the next payment. Interest shall be calculated from the date by which the payment should have been made up to the date when the late payment is made at the prevailing rate of interest for commercial borrowing for each of the currencies in which payments are made.

53. Compensation Events

53.1 The following shall be Compensation Events:

- (a) The PDE does not give access to a part of the Site by the Site Possession Date stated in the SCC.
- (b) The PDE modifies the Schedule of Other Contractors in a way that affects the work of the Contractor under the Contract.
- (c) The Project Manager orders a delay or does not issue Drawings, Specifications, or instructions required for the execution of the Works on time.
- (d) The Project Manager instructs the Contractor to uncover or to carry out additional tests upon work, which is then found to have no Defects.
- (e) The Project Manager unreasonably does not approve a subcontract to be let.
- (f) Ground conditions are substantially more adverse than could reasonably have been assumed before signing of the Agreement from the information issued to bidders (including the Site Investigation Reports), from information available publicly and from a visual inspection of the Site.
- (g) The Project Manager gives instruction for dealing with an unforeseen condition, caused by the PDE, or additional work required for safety or other reasons.
- (h) Other contractors, public authorities, utilities, or the PDE does not work within the dates and other constraints stated in the Contract, and they cause delay or extra cost to the Contractor.
- (i) The advance payment is delayed.
- (j) The effects on the Contractor of any of the PDE's Risks.
- (k) The Project Manager unreasonably delays issuing a Certificate of Completion.
- (l) Other Compensation Events described in the SCC or determined by the Project Manager shall apply.

53.2 If a Compensation Event would cause additional cost or would prevent the work being

Part 3: Section 7: General Conditions of Contract

completed before the Intended Completion Date, the Contract Price shall be increased and/or the Intended Completion Date shall be extended. The Project Manager shall decide whether and by how much the Contract Price shall be increased and whether and by how much the Intended Completion Date shall be extended.

53.3 As soon as information demonstrating the effect of each Compensation Event upon the Contractor's forecast cost has been provided by the Contractor, it shall be assessed by the Project Manager, and the Contract Price shall be adjusted accordingly. If the Contractor's forecast is deemed unreasonable, the Project Manager shall adjust the Contract Price based on the Project Manager's forecast. The Project Manager will assume that the Contractor will react competently and promptly to the event.

53.4 The Contractor shall not be entitled to compensation to the extent that the Procuring and Disposing Entity's interests are adversely affected by the Contractor's not having given an early warning or not having cooperated with the Project Manager.

54. Tax

The Project Manager shall adjust the Contract Price if taxes, duties, and other levies are changed between the date 28 days before the submission of bids for the Contract and the date of the last Completion certificate. The adjustment shall be the change in the amount of tax payable by the Contractor, provided such changes are not already reflected in the Contract Price or are a result of GCC 56.

55. Currencies

Where payments are made in currencies other than Uganda Shillings, the exchange rates used for calculating the amounts to be paid shall be the exchange rates stated in the Contractor's Bid.

56. Price Adjustment

56.1 Prices payable to the Provider, as stated in the Contract, shall be subject to adjustment during the performance of the Contract to reflect changes in the cost of labour and material components in accordance with the formula:

$$\Delta P = P_0 \left(a + b \frac{L_1}{L_0} + c \frac{M_1}{M_0} \right) - P_0$$

in which:

ΔP = adjustment amount payable to the Provider.

P_0 = Contract Price (base price).

a = fixed element representing profits and overheads included in the Contract Price and generally in the range of five (5) to fifteen (15) per cent.

b = estimated percentage of labour component in the Contract Price.

c = estimated percentage of material component in the Contract Price.

L_0, L_1 = labour indices applicable to the appropriate industry in the country of origin on the base date and date for adjustment, respectively.

M_0, M_1 = material indices for the major raw material on the base date and date for adjustment, respectively, in the country of origin.

The coefficients a , b , and c shall be specified by the procuring and disposing entity in the bidding documents. The sum of the three coefficients should be one (1) in every

Part 3: Section 7: General Conditions of Contract

application of the formula.

The Bidder shall indicate the source of the indices and the base date indices in his bid.

Base date = thirty (30) days prior to the deadline for submission of the bids.

Date of adjustment = _____ weeks prior to the date of shipment (representing the mid-point of the period of manufacture).

The above price adjustment formula shall be invoked by either party subject to the following further conditions:

(a) Price adjustment will be applied only if the resulting increase or decrease is more than ____ per cent of the Contract Price.

[Two (2) per cent would be an acceptable percentage.]

(b) No price adjustment shall be allowed beyond the original delivery dates unless specifically stated in the extension letter. As a rule, no price adjustment shall be allowed for periods of delay for which the Provider is entirely responsible. The PDE will, however, be entitled to any decrease in the prices of the supplies and services subject to adjustment.

(c) The total adjustment under this clause shall be subject to a ceiling of plus or minus _____ per cent of the Contract Price.

[Ten (10) per cent would be an acceptable percentage.]

(d) If the currency in which the Contract Price P_0 is expressed is different from the currency of origin of the labour and material indices, a correction factor will be applied to avoid incorrect adjustments of the Contract Price. The correction factor shall correspond to the ratio of exchange rates between the two currencies on the base date and the date for adjustment as defined above.

56.2 No price adjustment shall be payable on the portion of the Contract Price paid to the Provider as advance payment.

56.3 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account of all changes in cost due to fluctuations in costs.

57. Retention

57.1 If so stated in the SCC, the PDE shall retain from each payment due to the Contractor the proportion stated in the SCC until Completion of the whole of the Works.

57.2 On completion of the whole of the Works, half the total amount retained shall be repaid to the Contractor and half when the Defects Liability Period has passed and the Project Manager has certified that all Defects notified by the Project Manager to the Contractor before the end of this period have been corrected.

57.3 On completion of the whole Works, the Contractor may substitute retention money with an “on-demand” Bank guarantee.

58. Liquidated Damages

58.1 If so stated in the SCC, the Contractor shall pay liquidated damages to the PDE at the rate per day stated in the SCC for each day that the Completion Date is later than the Intended Completion Date. The total amount of liquidated damages shall not exceed the amount defined in the SCC. PDE may deduct liquidated damages from payments

Part 3: Section 7: General Conditions of Contract

due to the Contractor. Payment of liquidated damages shall not affect the Contractor's liabilities.

- 58.2 If the Intended Completion Date is extended after liquidated damages have been paid, the Project Manager shall correct any overpayment of liquidated damages by the Contractor by adjusting the next payment certificate. The Contractor shall be paid interest on the overpayment, calculated from the date of payment to the date of repayment, at the rates specified in GCC 52.

59. Bonus

If so stated in the SCC, the Contractor shall be paid a Bonus calculated at the rate per working day stated in the SCC for each day (less any days for which the Contractor is paid for acceleration) that the Completion is earlier than the Intended Completion Date. The Completion Date shall be certified in accordance with GCC 64.

60. Advance Payment

- 60.1 If so stated in the SCC, the PDE shall make an advance payment to the Contractor of the amounts stated in the SCC within the period stated in the SCC, against a provision by the Contractor of an on-demand Bank Security in a form and by a bank acceptable to the PDE in amounts and currencies equal to the advance payment. The Guarantee shall remain effective until the advance payment has been repaid, but the amount of the Guarantee shall be progressively reduced by the amounts repaid by the Contractor. Interest will not be charged on the advance payment.

- 60.2 The Contractor is to use the advance payment only to pay for Equipment, Plant, Materials, and mobilisation expenses required specifically for the execution of the Contract. The Contractor shall demonstrate that advance payment has been used in this way by supplying copies of invoices or other documents to the Project Manager.

- 60.3 The advance payment shall be repaid by deducting proportionate amounts from payments otherwise due to the Contractor, as specified in the SCC, following the schedule of completed percentages of the Works on a payment basis. No account shall be taken of the advance payment or its repayment in assessing valuations of work done, Variations, price adjustments, Compensation Events, Bonuses, or Liquidated Damages.

61. Performance Security and ES Performance Security

- 61.1 The Contractor shall, within twenty-one (21) calendar days of signing the contract, provide a Performance Security and Environmental and Social, (ES) Performance Security for compliance with the Contractor's ESHS obligations for the due performance of the Contract. The Performance Security and the ES Performance Security shall be in the amount specified in the SCC and shall be denominated in the currency in which the Contract Price is payable.

- 61.2 The proceeds of the Performance Security and ES Performance Security shall be payable to the PDE as compensation for any loss resulting from the Contractor's failure to complete its obligations under the Contract.

- 61.3 The Performance Security and ES Performance Security shall be in the form stipulated in Section 9 of the bidding document.

- 61.4 The Performance Security and ES Performance Security to the PDE shall be valid until a date 28 days beyond the intended completion date stated in the SCC.

Part 3: Section 7: General Conditions of Contract

62. Day Works

- 62.1 If applicable, the Day works rates in the Contractor's Bid shall be used for small additional amounts of work only when the Project Manager has given written instructions in advance for additional work to be paid for in that way.
- 62.2 All work to be paid for as Day works shall be recorded by the Contractor on forms approved by the Project Manager. Each completed form shall be verified and signed by the Project Manager within two days of the work being done.
- 62.3 The Contractor shall be paid for Day works subject to obtaining signed Day works forms.

63. Cost Repairs

Loss or damage to the Works or Materials to be incorporated in the Works between the Start Date and the end of the Defects Correction periods shall be remedied by the Contractor at the Contractor's cost if the loss or damage arises from the Contractor's acts or omissions.

E. FINISHING THE CONTRACT

64. Completion

The Contractor shall request the Project Manager to issue a certificate of completion of the Works, and the Project Manager will do so upon deciding that the work is completed. The completion must include Environmental and Social post-construction activities including but not limited to decommissioning and landscaping.

65. Taking Over

The PDE shall take over the Site and the Works within seven days of the Project Manager's issuing a certificate of Completion.

66. Final Account

The Contractor shall supply the Project Manager with a detailed account of the total amount that the Contractor considers payable under the Contract before the end of the Defects Liability Period. The Project Manager shall issue a Defects Liability Certificate and certify any final payment that is due to the Contractor within 56 days of receiving the Contractor's account if it is correct and complete. If it is not, the Project Manager shall issue within 56 days a schedule that states the scope of the corrections or additions that are necessary. If the Final Account is still unsatisfactory after it has been resubmitted, the Project Manager shall decide on the amount payable to the Contractor and issue a payment certificate.

67. Operating and Maintenance Manuals

- 67.1 If "as-built" Drawings and/or operating and maintenance manuals are required, the Contractor shall supply them by the dates stated in the SCC.
- 67.2 If the Contractor does not supply the Drawings and/or manuals by the dates stated in the SCC, or they do not receive the Project Manager's approval, the Project Manager shall withhold the amount stated in the SCC from payments due to the Contractor.

68. Termination

- 68.1 The PDE or the Contractor may terminate the Contract if the other party causes a fundamental breach of the Contract.
- 68.2 Fundamental breaches of Contract shall include, but shall not be limited to, the

Part 3: Section 7: General Conditions of Contract

following:

- (a) the Contractor stops work for 28 days when no stoppage of work is shown on the current Program and the stoppage has not been authorised by the Project Manager;
- (b) the Project Manager instructs the Contractor to delay the progress of the Works, and the instruction is not withdrawn within 28 days;
- (c) the PDE or the Contractor is made bankrupt or goes into liquidation other than for reconstruction or amalgamation;
- (d) a payment certified by the Project Manager is not paid by the PDE to the Contractor within 84 days of the date of the Project Manager's certificate;
- (e) the Project Manager gives Notice that failure to correct a particular Defect is a fundamental breach of contract and the Contractor fails to correct it within a reasonable period determined by the Project Manager;
- (f) the Contractor does not maintain a Security, which is required;
- (g) the rate of progress of the Works at any time during the period of the contract is such that the completion of the Works will, as measured against the current Program, be delayed by the number of days for which the maximum amount of liquidated damages can be imposed; and
- (h) if the Contractor in the judgement of the PDE has engaged in corrupt, fraudulent, collusive or coercive practices in competing for or in the executing the contract.

For the purposes of this paragraph:

- (a) "corrupt practise" means the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value, to influence the action of a public official in the procurement process or contract execution; and
- (b) "fraudulent practice" is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
- (c) "collusive practice" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
- (d) "coercive practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party.

68.3 When either party to the Contract gives notice of a breach of Contract to the Project Manager for a cause other than those listed under GCC 68.2 above, the Project Manager shall decide whether the breach is fundamental or not.

68.4 Notwithstanding the above, the PDE may terminate the Contract for convenience.

68.5 If the Contract is terminated, the Contractor shall stop work immediately, make the Site safe and secure, and leave the Site as soon as reasonably possible.

69. Payment upon Termination

69.1 If the contract is terminated because of a fundamental breach of contract by the Contractor, the Project Manager shall issue a certificate for the value of the work done and Materials ordered less the advance payment received up to the date of the issue of the certificate and less the percentage to apply to the value of the work not completed,

Part 3: Section 7: General Conditions of Contract

as indicated in the SCC. Additional Liquidated Damages shall not apply. If the total amount due to the PDE exceeds any payment due to the Contractor, the difference shall be a debt payable to the PDE.

69.2 If the Contract is terminated for the PDE's convenience or because of a fundamental breach of Contract by PDE, the Project Manager shall issue a certificate for the value of the work done, Materials ordered, the reasonable cost of removal of Equipment, repatriation of the Contractor's personnel employed solely on the Works, and the Contractor's costs of protecting and securing the Works, and less advance payments received up to the date of the certificate.

70. Release from performance

If the Contract is frustrated by the outbreak of war or by any other event entirely outside the control of either the PDE or the Contractor, the Project Manager shall certify that the Contract has been frustrated. The Contractor shall make the Site safe and stop work as quickly as possible after receiving this certificate and shall be paid for all work carried out before receiving it and for any work carried out afterwards to which a commitment was made.
